

I have been an XM radio subscriber since practically the first day it started. I waited two years for this technology (ever since I first read about it!). I live in a rural area that has ONE radio station! I do sometimes receive Milwaukee and Chicago stations, but only if there are sun spots or some such thing. XM radio is fantastic. I can now listen to my classical music, jazz, CNN, Fox new whenever I want to. I can get the Chicago weather and traffic reports at any time.

PLEASE DO NOT TAKE AWAY MOZART!

PEASE DO NO TAKE AWAY XM!

Margaret Weis

PS I gave XM as a gift to a house-bound friend. She was never able to have the kind of music she liked in her home before this (since we have only the one above-mentioned radio station) and this has been such a blessing for her.
